Over the weekend, CPA Scholars had the opportunity to network and show off their achievements to many colleges over at St. Louis University.

By the end of the Scholarship Fair, scholars received many college acceptances AND over \$250,000 in scholarships thanks to the Infinite Scholars Program.

Today scholars attended the Infinite Scholars Program's Scholarship Fair.

Many of our scholars left with acceptance letters.

In addition \$322,000 in scholarship money was offered to our scholars.

"The Possibilities are Infinite"

Over the past 20+ years, the Infinite Scholars Program (ISP) has made a significant impact in the realm of higher education access through our nationwide scholarship fairs. We strive to provide students with the opportunity to participate in innovative college and career readiness programs that emphasize the importance of equality, diversity, and inclusion. ISP has facilitated access to over \$2 billion in scholarship awards for at least 200,000 students throughout the nation.

ISP hosts scholarship fairs across various cities in the United States, offering high school students a unique chance to meet with colleges and universities that grant admissions and award scholarships on the spot. These events are meticulously planned to cover a wide geographic area, ensuring broad access to potential educational opportunities for students from diverse backgrounds. The fairs are not just about scholarships; they serve as a platform for promoting college and career readiness among students, aligning with ISP's overarching goal of fostering an inclusive environment in higher education.
